FEDERAL COMMUNICATIONS COMMISSION
OFFICE OF THE SECRETARY

FCC to retain 2nd adjacent channel restrictions.

LPFM that will severely limit the number of LPFM stations that can be licensed nationwide. In RM-9242 I showed how it would be necessary to delete the 2nd and 3rd adjacent channel restrictions to allow any great number of LPFM stations to be created and I showed how this could be accomplished without causing interference. The FCC's own receiver study later proved this was possible. However, under the rules the FCC intends to vote in on Jan 20th, they will drop only the 3rd adjacent channel restrictions and keep in force the 2nd adjacent channel restrictions. This means that, even with the reduced power of 100 watts, very very few stations will be available in the larger markets where the spectrum is tight and the need is greatest.

If You Do Not relax 2nd adjacent channel restrictions You Must Enact "Enact "The 2000 Radio Broadcast Regression Act"

(FCC Docket MM 99-25 LPFM Citizens Community Interest Radio)

To regress all NAB and NPR Radio Stations to 10 to 3000 Watts to serve their Community Of License not the Entire State or Several States, and Conform, and or to act in accordance with the Custom Laws of our Nation, and The 1927 & 1934 Communications Act. This would allow the American Citizens to Partake in Free Enterprise and Community Broadcast Service, and return their Airways back. As Proposed By The FCC in Docket MM 99-25 Free Enterprise

"Equals 2000 Radio Broadcast Regression Act"

(a) Aid, counsel, assistance, etc., to small business concerns
The essence of the American economic system of private enterprise is
free competition.
Only through full and free competition can free markets, free entry
into business, and
opportunities for the expression and growth of personal initiative and
individual judgment
be assured. The preservation and expansion of such competition is
basic not only to the
economic well-being but to the security of this Nation. Such security
and well-being
cannot be realized unless the actual and potential capacity of small
business is encouraged
and developed. It is the declared policy of the Congress that the
Government should aid,
counsel, assist, and protect, insofar as is possible, the interests of
small-business concerns
in order to preserve free competitive enterprise, to insure that a
fair proportion of the total
purchases and contracts or subcontracts for property and services for
the Government
(including but not limited to contracts or subcontracts for
maintenance, repair, and
construction) be placed with small-business enterprises, to insure
that a fair proportion of
the total sales of Government property be made to such enterprises,
and to maintain and
strengthen the overall economy of the Nation.
